Why Should I Consider a Life Settlement?

A Life Settlement is a way for you to take control of the value of your policy now.

You can potentially cover all of the costs involved in alternative care. Including travel, stay, and treatment with a policy of nearly any size.

Money When you Need it

Secure a settlement as quickly as 7 days after initially contacting Abacus. We don't believe that you should have to wait the industry standard 45-60 days for life-saving treatment.

A Life Settlement allows you to focus on what is most important right now...healing.
